GE Dash 4000

GE Dash 4000

By combining modularity and portability, the DASH 4000 Pro takes the flexible bed concept to a new level, allowing clinicians to bring the ICU to any patient or easily adapt to specific department needs.

Features

– 10.4″ large-format, full-color active matrix display provides convenient viewing from a distance
– The best selection of algorithms to reduce false arrhythmia alarms – Dash leads the industry in rejecting artifact from pacemakers
– GE Healthcare’s exclusive blood pressure algorithms, DINAMAP classic and SuperSTAT improve speed, comfort and artifact rejection while retaining superior accuracy
– The SuperSTAT algorithm, available with the Masimo SpO2 option, assesses motion artifact to effectively distinguish signal noise
– Easy-to-use interface and color-coded patient cables
– Dash Monitors are lightweight, durable and ergonomic – Dash can be used wherever you need reliable patient monitor
– Color-coded connectors simplify set-up
– The optional wireless LAN ensures seamless transitions between hard-wired and wireless networking
– Long-lasting batteries power Dash 4000 for extended use and help support facility-wide portability
